Effective for Spring 2020 ONLY:

Global Health Electives, such as Biological Science, Medical Social Science, Medical Humanities, Global Processes, and Minor Electives, may be taken on a Pass/No Pass (P/NP) basis.

Please Note:

- **Core courses for major and minor requirements taken in Spring 2020** (GLBH 20, ANSC 148/GLBH 148, GLBH 181, MGT 173, GLBH 150B, and Policy Analysis courses) must still be taken for a letter grade. Students must earn a C- or better in these courses to receive credit for requirements. Again, the exception DOES NOT apply to core courses.

Reminders and Considerations for P/NP Grading Options:

- The choice to take classes P/NP could have ramifications for some scholarships or external criteria of graduate or professional schools. Please check with these respective entities to confirm before altering grading options.

- If you plan to overlap any courses for other requirements (GE, minor, etc) you should check with those respective academic offices regarding their policy for grading options in Spring 2020.

- If you are using any of these courses for pre-med/pre-health requirements, please double check with HealthBeat if these courses need to be taken for a letter grade.

If you have any questions about this Spring 2020 policy, please contact ghpadvising@ucsd.edu
